

■■ ORBIT SECURITY SYSTEMS

CERTIFICATE OF CYBERSECURITY SERVICE LEVEL AGREEMENT (SLA)

This certifies that **Velvet Craft Apparel** has successfully enrolled the digital assets under **velvetcraft.com** into the Orbit Security Autonomous Perimeter & Zero-Drift Sentinel Fleet. Orbit Security guarantees continuous, high-frequency surveillance, automated RFC compliance diffing, and cryptographic drift verification.

Certificate Identifier:	ORBIT-SLA-321F0935
Subscribed Organization:	Velvet Craft Apparel
Protected Apex Domain:	velvetcraft.com
Retainer Plan Tier:	Scale Retainer (\$299/mo)
Effective Commencement:	2026-10-02
Autonomous SLA Term:	Continuous 24/7/365 Autonomous Active Sentinel

SERVICE LEVEL COMMITMENTS & GUARANTEED REMEDIATION

- **1. 99.9% Continuous Sentinel Availability:** Continuous autonomous polling of DNS records, authoritative nameservers, and TLS perimeters without manual operator intervention.
- **2. <5-Minute Drift Telemetry:** Sub-five-minute identification and dispatch of alerts for dangling CNAME takeovers, unmapped CloudFront/S3/Shopify pointers, and DMARC spoofing drift.
- **3. OWASP & RFC Strict Validation:** Periodic validation of security.txt (RFC 9116), CAA policies (RFC 8659), and strict HSTS headers.
- **4. Zero Unmitigated High/Critical Takeovers:** Immediate automated dispatch of white-label mitigation briefings and pull-request patches to partner engineers.
